

PRAJWAL S

FULL STACK DEVELOPER

☎ +91-9036512779 # 7starprajwal1718@gmail.com [linkedin.com/in/prajwals](https://www.linkedin.com/in/prajwals)

Summary

Computer Science and Engineering student with strong skills in Full Stack Development, Data Structures, and Object-Oriented Programming. Proficient in Java, Python, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Experienced in building responsive web applications and RESTful APIs.

Passionate about developing scalable software solutions and continuously learning modern technologies.

Skills

Programming Languages: Java, C++, Python, JavaScript

Frontend Development: HTML5, CSS3, JavaScript, React.js

Backend Development: Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Maven, Streamlit

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Machine Learning: Scikit-Learn, Pandas, NumPy, Data Preprocessing

Experience

Java Full Stack Developer Intern

July 2026 – Present

Dhee Coding Lab (Offline)

- Undergoing training in Java Full Stack Development, covering Core Java, Object-Oriented Programming, JDBC, Servlets, Spring Boot, HTML, CSS, JavaScript, React.js, and MySQL.
- Developing full-stack web applications using modern frontend and backend technologies.
- Implementing RESTful APIs, database integration, and responsive user interfaces as part of hands-on projects.
- Strengthening problem-solving skills through Data Structures and Algorithms practice and real-world development tasks.
- Collaborating with mentors and peers to build industry-level software solutions following best coding practices.

Projects

E-Commerce Web Application | *React.js, JavaScript, HTML, CSS*

2026

- Developed a responsive e-commerce web application using React.js, JavaScript, HTML, and CSS, ensuring seamless user experience across devices.
- Integrated REST APIs to dynamically fetch and display product catalogs, categories, pricing, and detailed product information.
- Implemented product search, filtering, and sorting functionalities to enhance product discovery and user engagement.
- Built reusable React components and optimized state management to improve application scalability and maintainability.
- Implemented loading, failure, and retry views to efficiently handle API requests and network-related errors.
- Designed responsive layouts and intuitive navigation, improving usability and overall application performance.

- Developed a machine learning application to predict student subject marks and semester SGPA using academic performance data.
- Applied Random Forest Regression and data preprocessing techniques to improve prediction accuracy.
- Built an interactive Streamlit dashboard for user input, prediction generation, and result visualization.
- Integrated data cleaning, model training, and reporting functionalities into a unified application.
- Designed a user-friendly interface to help students analyze academic performance and estimate future outcomes.

Awards & Certifications

- **Artificial Intelligence and Machine Learning Certification (2025):** Successfully completed a certification program focused on AI and Machine Learning concepts and applications.
- **1st Place – Blind Coding Competition:** Secured First Rank in the Blind Coding Competition conducted at Sri Siddhartha Institute of Technology, demonstrating strong programming and problem-solving skills.
- **1st Place – Coding Contest:** Achieved First Rank in the college-level Coding Contest by solving algorithmic and programming challenges efficiently.
- **Web Developer – Ritambhara 2026:** Designed, developed, and deployed the official Prize Distribution Portal for the college cultural fest *Ritambhara 2026*, enabling efficient publication of event results and award information. Website Link

Education

B.E in Computer Science and Engineering
Sri Siddhartha Institute of Technology, Tumakuru

Expected Graduation: 2027
CGPA: 8.5 / 10
